Wall Pattern**
* ALL RESIN*
(Round Models Only)

When things start heating up, you can start cooling down in a new CORNELIUS above ground pool. Enjoy a refreshing swim, day or night in the privacy and comfort of your own backyard. Entertain family and friends and enjoy all the best summer has to offer with a CORNELIUS pool.

Constructed tough yet easy to own

If you want to beat the heat this summer, there's no better way to cool the summer sizzle than in a **DYNASTY** pool from **CORNELIUS**.

Designed and built to the highest standards in the industry, the 52" **DYNASTY** is carefully crafted to provide years of problem-free enjoyment. Three components form the solid, integrated structure of the **DYNASTY**—the wall, frame and sub frame.

The first component is a heavy gauge steel wall, which is hot-dip galvanized and treated with "Weatherizer" paint coating for additional protection. A decorative wall pattern is applied over this surface and is then treated with our "Krystal Kote®" sealant to protect from weather elements and pool chemicals. Lastly, a convenient wide mouth skimmer cut out is incorporated.

The sturdy **DYNASTY** khaki colored pool frame consists of a wide, 8-inch extruded resin ledge, coupled with a 7-inch extruded resin post and topped with a three-piece injection molded resin cap and post collar.

The sub-frame features a strong, extruded resin bottom track with injection molded resin lower post collar and bottom connector. With the addition of one of our many colorful liner designs, you're set to enjoy a superior pool for years of worry free family fun.

Simple and easy installation

As many **CORNELIUS** pool owners have discovered, if you can use a screwdriver, you can assemble your own **CORNELIUS** pool. No multi-sized washers or nuts are used. We've simplified assembly with just one large screw type for all the pool elements. And we supply easy to follow, step-by-step instructions as well as a helpful video.

Pick the size and shape that's best for you

Whatever size of property you have, there's a **DYNASTY** pool to fit your yard and your budget. Choose from a wide variety of Round, A-Brace Ovals or NBS Ovals and beat the heat this summer!
